

Floor Standing Plate Punch

Description:

With over 15,000 installations worldwide, the Billows Protocol plate punch is the cornerstone of the product range. Machines are held in stock to suit all the standard register systems fitted by the major press manufacturers. Plate punches can be made to order to suit a combination of specifications, also to suit web presses or custom systems.

Features:

- Floor standing
- Foot operation
- Punches and dies made from hardened tool steel
- Optional CTP sensors with indicator lights
- Auto-centring
- Auto-centring can be locked for fast through-put
- Large waste tray
- Virtually maintenance free
- Billows Protocol warranty
